PROGRAM

Ökumene von unten!

For an ecumenism from below!

¡Por un ecumenismo desde abajo!

Pour un œcuménisme d'en bas!

City monastery Karlsruhe – free entrance!

Who we are

Alongside the assembly of the World Council of Churches, who intends to determine the work of worldwide ecumenism decisively for the next years, we, a group of initiatives and individuals, want to accompany this meeting in a critical way.

What we want and do believe

As Christians we want to be part of the social movements around and to participate in building up the future of a Good Life for all. We believe in an inspiring joining together in the midst of openness of different cultures, religions and ideologies

Where casa comun arises

Invitation! With you an encounter, a place for praying, for listening and for learning will arise! Inside the building and garden area of the City monastery/Stadtkloster, **Rechts der Alb 28 in Karlsruhe-Dammerstock.**
